

NS DATALAB · CLIENT BRIEF

Site preview and domain options

Ivo Koytchev · 18 August 2026 · For your review. Nothing has been purchased or announced.

Preview the site

The gallery is up for your review. This is a temporary address until you choose a public name and we point it at the site.

- Home — https://barracudagear.github.io/IvoK_Art_Codex/
- Works — https://barracudagear.github.io/IvoK_Art_Codex/works.html
- About — https://barracudagear.github.io/IvoK_Art_Codex/about.html
- Send updates or new work — https://barracudagear.github.io/IvoK_Art_Codex/update.html

What is on it now: your name, education and studio years, the studio photograph, and 45 works in Portraits, Landscapes, Interior Murals, Exterior Murals, and Faux Finishes.

Works are titled Untitled until you send titles. Contact, prints, and commissions stay as “Inquiries welcome” until you give a public email and (if you want) Instagram.

What we need from you

- Which web address you want (recommendation below).
- Titles, years, mediums, and sizes for the works you want labeled. Prices only if you want them shown.
- The public studio email, and Instagram if you use one.
- Anything you want changed on the preview before we put it on your own address.

You can reply by email or use the update form. Registration of the domain should be in your name, with your email and billing. We will not own it.

Domain recommendation

Register ivokoytchev.art as the public address. It is your full name, it reads as an artist site, and it is available.

If you also want a traditional .com, add **ivo-koytchev.com** and we will point it to the same site. The unhyphenated name .com (ivokoytchev.com) is already taken by someone else and is only a parked page, not a studio site.

The three strongest options

ADDRESS	WHY IT WORKS	ABOUT
ivokoytchev.art	Exact spelling. Clear, short, and made for artists.	About \$4 the first year, then about \$21–33 each year after.
ivo-koytchev.com	Keeps your spelling on a .com. The hyphen is required because the version without a hyphen is taken.	About \$11–12 per year.
ivokoychev.com	The only free unhyphenated name .com. It drops the <i>t</i> you use in public (Koychev, not Koytchev).	About \$11–12 per year.

What is already taken

- **ivokoytchev.com** — registered since 2014. Currently a parked page, not a portfolio. Expires 23 November 2026. No public “buy now” price.
- **koytchev.com** — registered, not an artist site.

If you later want ivokoytchev.com, we can watch the expiration or make an offer. We would not wait on that for launch.

Useful backups

These are also available and can redirect to the main address if you want extra coverage:

- ivokoytchev.net — about \$12–13 / year
- ivokoytchev.org — about \$8 the first year, then about \$12–19
- ivokoytchev.studio — about \$12 the first year, then about \$32–53
- ivokoytchev.gallery — about \$23 / year

How we suggest handling it

- You choose the name. The registration should be **in your name**.
- If you like the recommendation: register **ivokoytchev.art**. Optionally also register **ivo-koytchev.com** so both kinds of visitors land on the same site.
- If you prefer a .com as the main address, choose **ivo-koytchev.com** (keeps the *t*) or **ivokoychev.com** (drops the *t*). If you take the no-*t* .com, we recommend also taking .art so the public spelling is protected.
- We can change the public address later. Launch does not have to wait on a perfect name.

Prices are current retail estimates as of 18 August 2026 (Porkbun / Namecheap). Final checkout price can differ slightly, and a few names can be marked “premium” at the registry. We have not reserved or purchased anything.

When you tell us which name you want, we will send a short step-by-step for registering it and pointing it at the site.
